The recent call on subscriber for 50 per cent. of their subscriptions has met with satisfactory response, and everything is looking good for a big Bourbon Fair in September next.

The meeting adjourned to meet in the basement of the court house on cattle for \$28 per head. March 10th.

LAST DAY TO FILE SUITS.

Friday was the last day to file suits for the March term of the Bourbon Circuit Court, which begins Monday, March 12th. The docket shows old equity, 281; old crdinary, 82; appearances, 43; Commonwealth, 54. Of the appearance cases Judge Harmon Stitt has filed the largest number. This goes to show that the Judge was wise when he moved to Paris to reside, as his practice has been steadily on the in-

Among the last suits filed is one filed by Attorney Barnes for Millie Daniels against the Bluegrass Traction Company for \$2,000 damages.

NO WONDER!

The Atlanta Constitution explains the defeat of the Republican candidate for mayor of Pittsburg by the fact that he is the maker of Pittsburg stogies. Well, it may be so. There is always a revengeful spirit abroad in the ranks of the G. O. P., with some justification, of course, in the Pittsburg case.

TRUST BUSTERS.

All honor to the hens of this country, for they have done what big, "able men have failed to do. They have smashed a trust. It is given out that the losses of the Chicago manipilators of the egg market will reach nearly \$400,000.

When the hens get busy the cold storage people are simply "not in it," and besides the goods the former deliver are fresh, you never here of them trying to palm off stale eggs on the public.

WHAT MIGHT HAVE BEEN.

It is now claimed that had Russia been a country of small farms, like France, and had a small part of the governmental energy which was expended in military aggression on weaker neighbors been spent in promoting an improved agriculture, the present revolution would probably never have occurred. The quarrel of the people was not with the principle of autocracy-rather, they glory in it-but with a false social system based on the ownership of the land by a few.

GET OFF OR PUT HIM OFF.

This is an excellent time for Judge Hargis, of the county of Breathitt, to ask the State Central Committee to accept his resignation. Or if the Beckham machine objects to this, feeling that they can't get along without his services, isn't it also an excellent time for the State Central Committee to ask the judge to resign, willingly or unwillingly? We know he is one of the big wheels of the machine, but for the sake of the Democratic party this man should be removed from this committee.

OLD WAR HORSE KNOCKED OUT.

General Grosvenir, another Ohio Republican Congressamn who has heretofore been invincible in the politics of his State, has met defeat at last. In explaining his defeat to Washington correspondents, he says that "the trouble is that the people don't line up any more." You are mistaken, old man, the trouble is the line up of the people of your district broke the district machine. He is like others we know of, overlooking the fact that these days are machine breaking days everywhere. What a breaking it will be in old Kentucky before

A NETWORK OF RAILROADS.

The United States is a great network of railroads and the meshes are drawing closer and closer every year by the construction of more lines of road. According to the bureau of Statistics, if the whole British Empire with over three times the area and nearly five times the population of the Union, were thrown together it would have considerable less than half the American mileage. The United States has more miles of railroad than all Europe, and it owns about two-thirds as much as the entire world outside of its own boundaries. We suppose this accounts for so much freight rate discrimination in the United States just now.

PUT THEM ON THE LAND.

A hundred immigrants per year, settled on a million or ten million acres of land, would not only bring no detriment to the country, but would be an important factor in increasing the value of investments of all kinds, enlarging railroads profits and stimulating manufactures and trade. The same number of immigrants, "dumped" into our already overcrowded cities and mining districts, would increase the menace of social and political disorder already seen in these congested spots. Get the immigrants to the land, and we shall have no future occasion to lament our failure to "set up the bars" against immigration. Allow them to add their numbers to the cities and mining "masses," and the consequent fermentation may one day produce dangerous explosions.

WARNING TO THE NATION.

as charity doles it out to them."

Mr. Hill closed his address with expression of hope that steps would be taken to conserve the national resources before it was too late, and to establish better trade relations so that garding commercial conditions of the foreign markets might be secured for the increasing output of our industries. "The nation at large," he said, "is He especially urged better trade rela-

The ways of the late Augustin Daly. never grow tiresome. They furnish a mine of reminiscence and anecdote that seem never to exhaust itself. Clara Morris knew Augustin Daly better, perhaps, than any of his personal or pro-January 2nd and 16th and February fessional friends who have survived for his company, and later become his adviser in many of his enterprises. Her "Looking Backward" in the March Mc-Clure's, is a charming and intimate bit of anecdote. She tells of how when she was starting for Europe on a vacation, Mr. Daly sent for her and gave her the rather difficulty mission of visiting all the theaters in London in search of the leading man. During this search for the needle in the haystack she saw Sir Henry Irving for the first time, and returning, told Mr. Daly of her impressions of him. Daly was enthusiastic, excited. Evidently he was planing big things to revolve about Irving; but she added that Irving had peculiarities of gesture and enunciation, and down tumbled the castles in

We have a twenty-five year contract with the Pittsburgh Coal Company which must be taken care of or given up. Give those miners their advance and keep them working or the United States Steel Corporation will grant the advance themselves where it will do good. We have one year's solid work ahead and cannot afford to have our mills shut down even for a day for lack of coal."

THE GLORY OF STRUGGLE.

By Rev. Thomas B. Gregory.

The young man, who in a fit of the blues the other day, threw himself into the East River from the deck of the ferryboat Texas, did not realize what he was missing.

There is no game so thrillingly interesting as the game of life, and the man who has the chance to play it and refuses to do so deprives himself of the keenest pleasure conceivable.

It has been said a thousand times that "life is a battle."

Ay, it is !-- and there is where the glory and the joy of the business come

Life is a battle, and to stand in the battle-line and fight, never despairing, never showing the white feather, with courage undaunted, holding the face toward the enemy until its lines are broken and victory sits upon your standard-that is where the true grandeur and blessedness of existence are found! Some once said: "Life is like a game of whist; I am not particularly fond of t, but since the cards have been placed in my hands I am going to play them for all they are worth."

That is the spirit to have in one's breast! That is the spirit that wins victories and keeps the world a-moving

### HORRIBLE FATE.

Minnie Sanders, a reputable colored woman, aged 50, residing in Clubber Bottom, a negro village three miles from Georgetown, was burned to death, Sunday night, with her two sons, Walter, aged 20; William, aged 10, and her grandson, ages 3.

Although her home was within a few yards of other residencs on each side the fire was unknown until daylight, when nothing was found of either but the charred remains of the building and the bones of the four inmates.

The oldest son had been ill of consumption all winter and the only cause assigned for the fire is that given by her brother-in-law, a drayman of Georgetown, who believes she started

### Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's Later the ice split, the wind changed root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with glyc-erine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality-such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts,

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned egetable ingredients and contains no alcohol or harmful habit-forming drugs.

"We feel it our duty to investigate, and after a due investigation believe that the danger line has been reached.

"Section 1977 of the Kentucky Statutes provides that any person participating in any game in which money or property is won or lost is guilty of gambling and therefore a violation of the statute.

"Section 1979 provides that whoever shall suffer any game whatever at which money or any property or thing of value is won or lost is played in his house, houseboat, or float on his premises or under his control, shall be fined not less than \$200 nor more than \$500.

"We consider both of these sections applicable to the case under our charge as grand jurors. We recommend that the Hon. Judge of this court instruct the next grand jury to investigate closely and indict those participating in the practice as set out in the above
